

THIS VALENTINE'S DAY,

IT'S TIME TO DUMP THE DURBIN-MARSHALL

CREDIT CARD BILL!

**CONGRESS: REJECT NEW CREDIT CARD MANDATES,
OPPOSE THE DURBIN-MARSHALL CREDIT CARD BILL!**

Congress has a toxic relationship with card routing mandates. Despite over a decade of research showing similar mandates for debit cards were a disaster for consumers, small businesses, and small financial institutions, corporate mega-stores are back and promising this time things will be “different.”

But the truth is the Durbin-Marshall Credit Card Bill is a sweetheart giveaway to mega-corporations like Walmart and Target, while eliminating credit card rewards, weakening fraud protections, and reducing access to credit for small businesses and low-income Americans.

Congress: This Valentine's Day, it's time to break up with the Durbin-Marshall Credit Card Bill and protect the value and security of America's payments system. Visit ElectronicPaymentsCoalition.org to learn more.
