

BUSTED!

Grocery Stores' False Narrative on Price Hikes & Gouging Consumers

EPC Electronic Payments Coalition

Grocery prices have risen 31% since March 2020, according to the U.S. Bureau of Labor Statistics.

It's Been 30 Years Since Food Ate Up This Much of Your Income

The Washington Post

Inflation has fallen. Why are groceries still so expensive?

Grocery and merchant groups are (once again) using the same debunked talking points to hide from the facts and shift the blame for their higher prices to credit card companies.
